Midt under den kolde krig gik den amerikanske hær i al hemmelighed i gang med at bygge en militærbase dybt inde i Grønlands indlandsis. Officielt var Camp Century en forskningsstation.

Men det langsigtede mål var potentielt altødelæggende. USA ville rette 600 atomsprænghoveder mod Sovjetunionen. I 1966, efter kun seks år, opgav amerikanerne det kontroversielle projekt og forlod lejren. Alligevel har Camp Century flere gange nedkølet de politiske og diplomatiske relationer mellem USA, Grønland og Danmark. Camp Century er den første samlede danske fortælling om byen under isen. Videnskabshistorikerne Henry Nielsen og Kristian Hvidtfelt Nielsen præsenterer Camp Centurys historie fra efterkrigstiden til i dag og forfølger både storpolitik, hemmelige notater, iskerneboringer, pressens interesse, hverdagen under isen og de lurende miljøproblemer, som en dag vil smelte frem af den grønlandske iskappe.
