BANG & OLUFSEN – en kærlighedshistorie er historien om noget af det fineste, vi nogensinde har skabt i Danmark.

Den lille fabrik fra Struer i Vestjylland har inspireret os og defineret os i en menneskealder, og en lang række produkter fra B&O indgår i den permanente samling på Museum of Modern Art i New York. Det er en historie om enestående design, om store personligheder, om billede og lyd samt om succes og fiasko. For kriser har der været nok af, men Bang & Olufsen har altid redet stormen af til stor glæde for de kunder, der føler en oprigtig kærlighed til den lille fabrik i Struer. I dag bevæger B&O sig fra BeoLab 90, den magtfulde topmodel, som prismæssigt befinder sig et sted i stratosfæren, til BeoPlay, der med stor succes henvender sig til den næste generation.
